Future Developments

Homebound's Concept

- Cozy and humorous indie game
- Inspired by the routine of coming home
- Set in Singapore
- Daily home routines lead up to a fun interactive challenge
- Aim: win the interactive game and earn coins to buy shop items

Intro to Homebound

- Shows the rhythm of everyday life at home
- All different sections of Homebound is a build-up to the main interactive game
- Interactive game aim: for rice grains to be collected while ants are killed

Target Audience

everyone!!

Casual Players

Challenge
Lovers

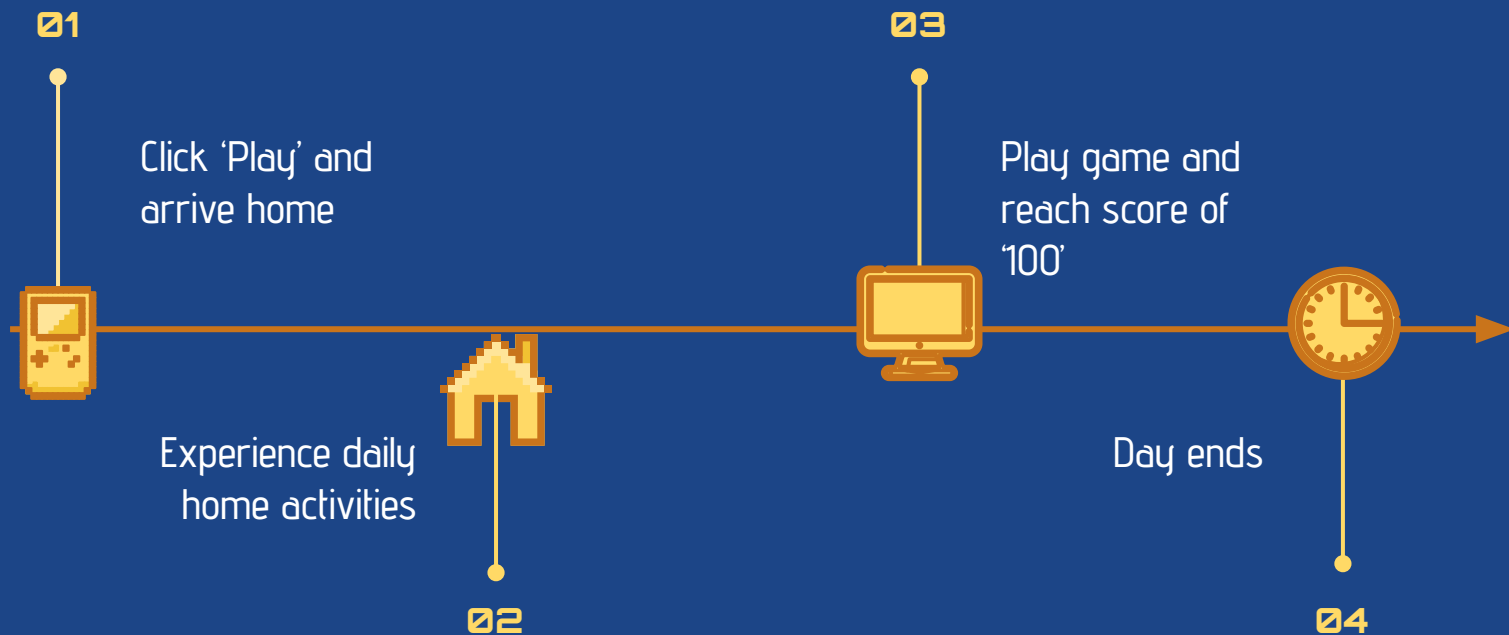

Cozy Gamers

Aim of Homebound

- Experience and connect with daily home life
- Collect rice grains and kill ants to win in the interactive game
- Get score to '100' to earn coins for unlocking items & decorating your home
- Progress at your own pace

Homebound's Features & Mechanics

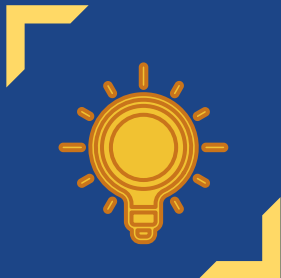

Win: collect rice grains/kill ants with skill until score '100'

Lose: get attacked by ants until OHP

Why is Homebound Fun/Useful

Rewarding & Simple

- Be able to win and earn coins
- Easy to play/learn

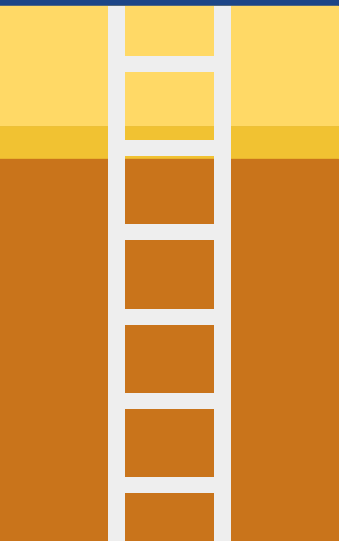

Destress

- Slow-paced gameplay
- Escape from daily pressures through a simple game

Live Demo of Homebound

Design Choices & Technical Implementation

Design Choices:

- Different story sections & one interactive game
- Based on common Singaporean household experience
- Balances relaxing exploration with a fun gameplay

Technical Implementations:

- There are simple controls and clear scoring
- Core system (coding) fully functional
- Focused on one complete interactive game due to time limitations

Future Developments

Shop System

- Win the level to earn coins
- With coins, buy items in store

Improve effects

- Put in more animations and effects
- Improve the visuals and sounds of the game

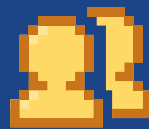

Ant Challenge

- Add difficulty levels
- From beginner ants -> stronger ants -> final boss ant

More Skills

- Add more power-ups and skills for player
- Final boss ant to be able to use skills

More characters

- Introduce new playable characters
- Experience life from different perspectives

Thank You!
